The stock market has presented a firm aspect to-day but the amount of transactions, excepting in a few descriptions, was light. The features were much the same as yesterday, the bears exhibiting but little dis-position to expand their lines while there is no hearty bull support to inaugurate or sustain a rally. The pur chases are almost entirely to cover maturing contracts the public still showing a judicious reserve in saking chances in the stock lottery, where the blanks so far out number the prizes. There is, however, both in the street and out of it, a strong disposition to operate for the rise, could speculators receive any assurances from Washington that the political clouds which now obscure our prosperity will be cleared away. They have, in-deed, such assurances from some quarters, but they do not attract confidence, as all the material facts of our present condition give the lie to them. Central was among the most active stocks, the transfer books open ing to-day, and was firm during the day at 77 | @77]. The Western shares were firm, Illinois Central being the most so, closing at 79. After the Board there was very little doing, and quotations were well sustained, the principal business being in New-York Central at 77 | 277]. The stock was quite scarce during the day. There was no second session of the Board to-day, the brokers taking a half holiday in honor of the birthday of Washington. The Board would have been adjourned yesterday until Saturday, but for the occurrence to-day of the opening of the books of the Central Railroad Company. The Board had legal advice that the non-delivery of stock to-day would vitiate the contracts. State Stocks are dull, but firm, with the exception of Tennessees, which are lower. In Railroad Bonds there was but little movement, but prices are well sustained. Hannibal and St. Joseph first mortgages, which sold a few days since at 43 have recovered to 48. The unofficial prices in the street at 34 o'clock were; United States 5s, 1874, 84 \$85; Indiana 5s, 87; Tennessee 6s, 71 272; Virginia 6s, 751 276; Missouri 6s, 651 266; Canton Company, 14 215; Comberland Coal, 7 & 7; Pacific Mail, 83; & 84; New-York Central Railroad, 771 277; Eric Railroad, 31; 31; Hudson River Railroad, 43; #43; Harlem Railroad, 154 @ 154; Harlem Preferred, 384 @ 384; Reading Railroad, 42@424; Michigan Central Railroad, 554@ 55; Michigan Southern and Northern Indiana Railroad, 14@14; Michigan Southern and Northern Indiana Kailroad, Guaranteed, 31; 232; Panama Railroad, 113 2114; Illinois Central Railroad, 78; 1079; Galena and Chicago Railroad, ex div., 712 272; Cleveland and Te ledo Railroad, 321@32; Chicago and Rock Island Railroad, 561 2 56; Chicago, Burlington, and Quincy Railroad, 701 2714; Illinois Central 7s, 95 296; Delaware and Hudson Canal Company, 87 @90; Pennsylvania Coal Company, 76 2761.

The business in foreign bills for this steamer has been moderate, with a moderate supply of bills. The demand has been almost entirely from banks. Sterling is 104 2 1054, with some drawers asking 106, without making sales. France are 5.45 @ 5.374.

The North Atlantic Steamship Company have sold their steamer the Adriatic to the Galway Company, and she will take her place in that line in about two weeks. We trust the favorite Capt. Joe Comstock will continue to command her. The Chicago and North-Western Bailroad earned the

the hands of the Trustees.

The Receiver has applied for permission to build grain elevator at La Crosse, costing \$10,000, which he says will be returned twice over in one year, in the saving of labor. For the next year, \$19,610 must be expended in bridge and culvert repairs, and as much more yearly for three years. The Oswego and Syracuse Road has declared a semi-

annual dividend of 3 P cent, payable on demand. The Pitteburgh and Boston Mining Company (Cliff) \$2 \$ share, payable 28th inst. The North-Western Insurance Company 5 & cent, payable on demand. The exchanges at the Bank Clearing-House this morning were \$16,491,957 87, and the balances \$1,051,402 97. The Silver Hill Mining Company have levied an assessment of 30 cents P share, payable, 15 cents on the 5th of March, and 5 cents each en the 5th of April, May, and July. Treasury Notes continue to be in active de-mand at 1024 for the 12 V cents, and other descriptions at rates to pay 94 P cent interest to the purchaser. The ruling rates of the Money market are, if anything, still easier. Single-name 30-day paper has been passed as low as 6 & cent, but it was very high toned. The range is 628 F cent for leading names and 527 F cent on demand. The Auerica at Halifax brings nothing important

commercially.

The leading banks held an adjourned meeting to-day to consulvin regard to the loan to be awarded to-morrow. After considerable discussion a list of \$2,500,000 was made up at 90, and it was understood that other banks would bid for another million at something over that. There is also a round-robin bid for about three millions, we understand, and another list of a million. Nearly 160 bids had been put in at 4 o'clock, and there was every reason to believe that the bids would largely exceed the amount needed. It appears to be anticipated that the bulk of the loan will go at 90@92. At 90} i pays just 7 V cent interest, while Government Secu rities can be bought in the open market to pay over F cent. The loan is desirable for banks, as it can be put up for security with the Bank Department, and higher-priced State Stock withdrawn.

The Corn Exchange was closed this morning also

the Merchapte Exchange. The Flour, Grain and Provision merchants did not transact any public business, and their counting-rooms were generally closed at noen. The merchandise brokers transacted business as usual. Coffee sold at an advance. The earge of the P. C. Warwick, comprising 4,000 Rio, sold at private sale; also 600 bags, in lots, at 11@134c. An auction sale of 6,000 bags passed off at an advance of half a cent P Ib; 3,000 bags were sold at 111 214c., average 12.56. Besides there sales 600 Government Java were taken on private terms. The business in Sugar was good, chiefly for export and to go East; 1,000 hbds. were sold at 3fc. each in bond, and 41 25 jc. duty paid. Molasses was in demand: 400 bbls. New-Orloans found buyers at 34 @ 36c. cash and 4 months; 100 hbds. Cuba at 18 jc. Spices were active: 27,000 mats Cassia and 1,500 bags Pepper were sold, the latter to arrive.

The amount of Dry Goods thrown on the market indicates some revival in the Dry Goods trade, and this we hear confirmed from other sources.

to a greater variety of productions than the States either north of south of it, will be more steady in its average results than the other Western States.

We are glad to confirm our last report, that the people along the Missouri River above and below St. Joseph, are showing a more decided appreciation of the value of our line, as compared with that furnished by the steamers not the river. When our read was first opened we understood that there were nearly eighty steamers in the trage of that river, and nearly fifty were engaged in business there as the beginning of the year 1899, which closed with only ten in the trade. The association under which the steamers were for many years run upon that river has reased to exist, broken up by the large losses inpurred in antiempt to keep up a regular like over a reute requiring from a week to ten days (according to the state of the water), against the route via the road requiring but a little over 24 hours for the journey. We think, therefore, that our prospects for more uniform and satisfactory rates from that part of our business have very much improved.
